app-database-v1 Documentation

Link to schema: https://app.quickdatabasediagrams.com/#/d/JbG8iC
App Database - Schema Version 1
Please bump the version by 1, any time the schema changes.
Also, include the migration plan under app/database/migration/server,
update all models, relationships and types.
Lastly, export all PNGs, SVGs, etc under the source project (./docs/database)
If you have any question/queries that you would like to clarify, please reach out to the Mobile Platform Team.
